Notes:

1 The above is based on publicly available data from www.fina.com and www.swimrankings.net

2 Textile bests are estimates only based on the fastest ranked time for the years 2006/7 and 2010-2013. Certain swimmers may have swum quicker times at other points. Where known these quicker times have been used.

3 In hypothetical scenarios each swimmer is considered individually in isolation from team-mates in the same event
